Troy Police Department offers Crime Mapping App for Smart Phones

The Troy Police Department has partnered with crimemapping.com to offer residents and visitors of Troy information on the latest crime incidents. This is a **FREE** smart phone app which can be downloaded from the links below. Crime incidents are pulled from our reporting database and transposed onto a map centered on the user's smart phone location. Incident details only include type of crime and general location. Another feature is that users can use this app anywhere in the country to see what crimes have been reported around their current location (the local agency must be participating with crimemapping.com to have their incidents loaded). There is a very informative 4 1/2 minute video on what the app can do:

<http://www.youtube.com/watch?v=3XSurKJGpt0>

This smart phone app is part of our ongoing commitment of timely, convenient, and transparent information delivery to our citizens.

To obtain this app for Apple devices please visit:

<https://itunes.apple.com/us/app/crimemapping.com/id452856454?ls=1&mt=8>

To obtain this app for Android devices please visit:

https://play.google.com/store/apps/details?id=com.redbrain.p3i&feature=search_result#?t=W251bGwsMSwxLDEsImNvbS5yZWRicmFpbi5wM2kiXQ

At this time Microsoft Windows 8 has not come out with the crime mapping app for Windows 8, however they will be within the next few months.

Below are photos of the actual app and some features:
